A golden opportunity for training attachment with Professor SHIRO MIYAYAMA in Fukui-ken Saiseikai Hospital, Fukui, Japan.

This training comes with a USD 3,000 training scholarship for travel expenses.

Award presentation will be held during the Congress Dinner (7.00 pm to 10.30 pm) on 4th October 2019 at the Banquet Hall, Level 3, KLCC.
Message From Organising Chairman of APCIO 2019

Dear Colleagues, Friends and Industry Partners,

It is my great pleasure to welcome all of you to this sunny city in Asia. Malaysia welcomes you with our warm hospitality.

It is our utmost privilege for having you joining us in this exciting congress.

The organising and scientific committees have been working relentlessly in putting together an exciting and comprehensive program in the field of interventional oncology (IO).

With the theme of “Interventional Therapy in Modern Oncology: Technological Integration Beyond Boundaries”, APCIO 2019 is multidisciplinary and multinational. We are honoured to have the support of CIRSE, Society of Interventional Radiology (SIR), Society of Interventional Oncology (SIO), Asia Pacific Society of Cardiovascular and Interventional Radiology (APSCVR), Asia-Pacific Association of Image-Guided Therapy in Oncology (APAITO), Asia Pacific Primary Liver Cancer Expert (APPLE), The Asia Pacific Association for Study of the Liver (APASL), as well as the 20 national and international societies in making this a collaborative exercise.

We have a total of 204 faculties; and the programme encompasses 7 tracks, 101 sessions, 415 didactic lectures including case presentations, as well as 4 live case transmissions; not to forget the Young Investigator Award competition, Guerbet cTACE Challenge and Asia Pacific Cryoablation Challenge etc.

APCIO 2019 wishes to spark start the presence of IO regionally. The congress aims in training and transcending knowledge to the next generations. Your contribution is exemplary and is highly appreciated in steering the future course of Interventional Oncology in the Asia Pacific fraternity. We are honoured for having you onboard this journey, in our struggle to set our milestone in the field of Oncology.

Financial supports for a large-scale event of this nature have been a great challenge for a radiology-based meeting in Malaysia. This is coupled by the ramifications of the new compliance rules that affected not only the USA but reaches globally as well, including this conference.

To all our sponsors and industry partners, we are thankful to you in bridging the gaps and bringing everyone together in this congress.

For the specialty to thrive and to grow, the key is “Symbiosis and Synergy” between the professional fraternities and the industry. We share the same vision “To Serve and To Care” and we work for the same goals “To Help and To Heal”. Your innovations steer the course of medicine; hence your presence and strong cooperation is vital to the survival and success of the fraternities. The busier we are, the better your corporate outlook is.

It is with these understanding and the financial resources that we are able to stretch our limits to host 204 faculties, in addition to the 270 grants designed for the young IRs, nurses and radiographers from the Asia Pacific regions. Two best papers will be rewarded with a USD 3000 training scholarship with Professor Dr Shinichi Hori, Gate Tower Institute, Osaka and Professor Dr Shiro Miyayama, Fukui-Ken Saiseikai Hospital. The 3rd and 4th best papers will win a lifetime opportunity of delivering their papers during the APCIO meets SIR categorical course entitled: “Hybrid Angio-CT Technology in Advanced Oncological Interventions: Asia Perspective” during SIR 2020, March 28-April 2, in Seattle, Washington, USA.

We are committed to planning an unforgettable time in Kuala Lumpur as meetings are not just about scientific learning and case sharing, but of building fellowships and renewing friendships.

Do take this opportunity to socialise and make new friends, good cheer with gourmet delights and experience the warm Malaysian hospitality.

Wishing you an enjoyable stay in Kuala Lumpur.

With best regards,

Alex Tang FRCR
Organising Chair APCIO 2019
3RD AND 4TH PLACE FOR YOUNG INVESTIGATOR AWARD
INVITATION AS FACULTY TO THE SOCIETY OF INTERVENTIONAL RADIOLOGY (SIR)
45TH ANNUAL SCIENTIFIC MEETING IN SEATTLE, WASHINGTON, USA IN

APCIO MEETS SIR 2020

HYBRID ANGIO-CT TECHNOLOGY IN ADVANCED ONCOLOGICAL INTERVENTIONS: ASIA PERSPECTIVE,
SA-CME SESSION

Faculties:
Alex Tang - Subang Jaya Medical Centre (MAS)
Yasuaki Arai - National Cancer Center Hospital (JPN)
Tay Kiang Hiong - Singapore General Hospital (SGP)
Nutcha Pinjaroen - Chulalongkorn University (THA)
Wang Xiao-Dong - Peking University Tumor Hospital (CHN)

Third Place (Young Investigator Award)
Fourth Place (Young Investigator Award)
Message From President of Asia-Pacific Society of Interventional Oncology

Dear Colleagues, Friends, Ladies and Gentlemen:

On behalf of the Asia-Pacific Society of Interventional Oncology, I would like to congratulate the 6th Asia-Pacific Conference of Interventional Oncology (6th APCIO 2019) holding in Kuala Lumpur, Malaysia.

It is my great pleasure to welcome all the great medical professionals, doctors, pharmacist, nurses, technicians, scientists, academicians, young researchers, students and business delegates from all over the world to attend the 6th APCIO 2019.

The conference shares an insight into the recent interventional oncology research and cutting-edge medical technologies, which gains immense interest with the colossal and exuberant presence of medical professionals, brilliant researchers, business delegates and talented student communities.

Our meeting’s goal is “Interventional Therapy in Modern Oncology: Integration Beyond Boundaries” and is to bring together multi-disciplinary group of medical workers from all over the world to present and exchange break-through ideas relate to the interventional oncology. It promotes top level research and to globalize the quality research in general, thus making discussions, presentations more internationally competitive and focusing attention on the recent outstanding achievements in the field of interventional oncology, and future trends and needs.

The APCIO 2019 has a total of 101 sessions, 415 lectures, 360 didactic lectures, 56 case presentations, many workshops, live cases and extreme Interventional oncology cases sharing, there are more than 200 faculties. The program book is the best souvenir, I hope you will enjoy it.

At this moment, I’d like to give appreciate to the Malaysian Society of Interventional Radiology, to Organizer Chairman Dr. Alex Tang and his team, to the Deputy Scientific Chairman and meeting secretariat, thank you very much for all of your contributions.

Dear colleagues, friends, ladies and gentlemen, we hope all of you enjoy the conference, the beautiful city Kuala Lumpur, enjoy your stay in Malaysia.

Yours sincerely,

Ren-Jie Yang, MD & PhD
Professor of Peking University Cancer Hospital
The President of Asia-Pacific Society of Interventional Oncology
MYSIR Council 2018 – 2020

President: Dr Alex Tang
Vice President: A. Prof. Dr Khairul Azmi Abd Kadir
Secretary: Dr Norshazriman Sulaiman
Treasurer: Dr Nur Adura Yaakup
